

411 Brixton Avenue
St. Lambert, P.Q.
June 8, 1963

Dear Mr. Whitman,

Thank-you for your letter of June 1, and for the magnitude estimates of Nova Herculis.

Enclosed are copies of the forms used in the Comet and Nova Section. These should be self-explanatory, but if you have any problem understanding them, let me know. I have run out of copies of the "Area" chart, but I will send you one when I have more printed.

If you wish to make systematic searches of selected areas of the sky, let me know what part of the sky you are interested in, and I could send you a list of areas not under observation at present.

Best regards and good observing,

Jim Low
