Dear Mr. Whitman,

Here is a partial list of
C & N Search areas not presently
under observation. Perhaps you
would like to select some to
observe:

Area #	R.A.	Dec.	ON
31	00:30-01:30	40-50	
33	06:20-07:10	40-50	
363	15:30-16:20	40-50	
369	15:40-16:20	30-40	
347	12:00-12:40	20-30	
435	22:40-23:40	10-20	

Many observers make their area
charts from Nortons Star Atlas
and later add fainter stars as
they observe them.

Best regards and good
observing,

Jin Low
