

88 Lorne Ave.
St. Catharines, Ont.
Monday June 14, 1965.

MR. JAMES W. A. LOW,
108 ROY AVE. APT. 102
DORVAL, QUB.

Dear Sir:

Here are negative search reports for
May, 1965.

Magnitude estimates for Nova
Aurulis 1963:

May 11	12 ^m . 7
" 19	12 ^m . 8
" 29	12 ^m . 6
" 31	12 ^m . 8

Best regards;

Hugh M. A. Maclean,
Niagara Falls, Centre.

P.S. Saw the moon last evening for about 5 minutes
around mid-eclipse - It was very cloudy here but I
happened to be fortunate in getting a break in the clouds.

I have been picking up the odd bit of "space
debris" in my binoculars - it's surprising how much
can be seen up there!
