

REPORT:

To the National Coordinator of the Variable Star Section  
From the National Coordinator of the Comet and Nova Section.

This continues the report I sent to you last June, which listed magnitude estimates of Nova Herculis 1963 from April ~~1964~~ 1964 to May 1965. All observations were made by Mr. H.N.A. Maclean of the Niagara Falls Centre, and he notes that they are approximate at best.

1965	June 10	12.9	(all with 8" Refl.)
	25	13.2	
	30	13.2	
	July 15	13.2	
	19	13.6	
	29	13.8	
	Aug. 4	13.8	
	24	13.8	
	Oct. 15	14.0	

end --- probably for good!
