OBSERVATION COMMITTEE

I	THE MOON AND RELATED PHENOMENA	<u>Chairman</u> <u>Chairman</u>
	1. Lunar Observations	George Wedge
	2. Lunar Occultations	Charles M. Good
	3. Lunar Eclipses	Director of Observational Activities
II	THE PLANETS, ASTEROIDS AND RELATED PHENOMENA	
	1. Planetary Observations	Kenneth Chalk
	2. Asteroid Observations	Constantine Papacosmas
III	THE SUN, AURORA BOREALIS AND RELATED PHENOMENA	
	1. Naked-eye Sun-spot Observations	Robert Venor
	2. Systematic Telescopic Solar Observations	Robert Ballantyne
	3. Other Telescopic Solar Observations	Rita Prezament
	4. Solar Eclipses	Dir. Observational Activities
	5. Aurora Borealis	Louis R. Duchow
IV	COMETS, NOVAE, VARIABLES, DOUBLE STARS	
	1. Comet & Nova Search	Dorothy Yane
	2. Observations of Comets and Novae	Jim Low
	3. Variable Star Observations	*
	4. Double Star Observations	Carl Jorgensen
V	METEORS	
	1. Sporadic Meteors & Fireballs	W. A. Warren
	2. Meteor Showers	Dir. Observational Activities
VI	MESSIERS, HERSCHELS & OTHER DEEP SKY WONDERS	Isabel K. Williamson
VII	ARTIFICIAL SATELLITES	
	1. Visual Observations	Vic Williams
	2. Radio Observations & Predictions	Bryan Rawlings
VIII	ASTROPHOTOGRAPHY	Constantine Papacosmas
IX	RADIO & ELECTRONICS	Bryan Rawlings
X	CONSTELLATION STUDY	Karl McNamara
XI	TELESCOPE MAKING	Robert Venor
XII	SPECIAL PROJECTS	A. H. Capper, W. Jutting H. Simkover, K. Zorgo

January 31, 1966

Dear Mr Jenkins,

Miss Williamson gave me your letter of December 17. Thank you for sending the photographs of Comet Ikeya-Seki --- they will go into the Comet file.

We had little luck with the comet at Montreal. The weather did not cooperate, but several members picked it up after perihelion passage. I failed to see it, although I looked on several occasions.

How many observations did you make of the comet? Could you please send a summary of your observations?

Best regards, and good observing,

Jim Low, National Coordinator
Comet and Nova Section
