Dec. 5, 1970

Dear Mr. Low

I thank you very much for your letter of 14 November, 1970 with the ephemeris of Comet Suzuki-Sato-Seki 1970m and also your previous letter. As yet I have not been able to observe this comet because of very poor weather conditions. It is hoped that if weather conditions improve an observation session may be held to seek out this comet as well as the Comet Enckle which you have provided me with its ephemeris. As far as I know no other members of our centre have observed these comets so it is hoped that we may get our first look at a comet soon. I will be in contact with you if we observe any of these comets. Once again, thank you for your help.

yours truly,  
*Randell Dodge*
