

President's Award

Richard Huziak is an active member of the RASC. He is instrumental in the fight to save our skies from light pollution. He is an active observer, coach, and mentor to many people, and a resource that many can count on to bring insights into the science and technology of astronomy. Rick is quick to share timely and relevant information about astronomical events and observing opportunities, and he is an active participant in forums such as the RASCals email list where he brings important matters to the attention of our membership, and freely answers questions with knowledge gained from years of professional and amateur astronomical experience.

Mr. Huziak received the Society's Chant Medal in 2001 and the Service Award in 2009. He has been a regular member of the Saskatoon Centre since 1977 and has served on the Light-Pollution Abatement committees for over 15 years.
