What's happening this year?

The Royal Astronomical Society of Canada's General Assembly is a four-day event, jam-packed with exciting events and fun for the entire family. This year's event starts with a youth day that celebrates Astrophotography, encourages youth networking and features a presentation by Research Scientist Aaron Persaud.

The main conference kicks off with Keynote speaker and television host, Emily Calandrelli. Other GA events include committee presentations, seminars, an award ceremony, live night sky observing and virtual tours of RASC observatories.

Guest speakers include Astrophysicist Katie Mack and Eclipse Chaser Kate Russo. The event also features Astronomy hot topics such as Dark-Sky Preserves and the highly anticipated Mars Madness Panel Discussion.
