Membership Update from Dr. Philip Groff

Hello Everyone,

As many of you are by now aware, we have recently deployed a new membership management system, replacing our old system that had reached the end of its life, and of server support. The new system is up and running, though as always happens when deploying a complex system, such as we need for the RASC, there have been a few unexpected developments. We are resolving these in order of priority. We appreciate your patience while we deal with them. The issue with logging in to the site, using the Log In link on the main page, should be fixed by the end of this week. All other major issues should be addressed by the end of next week. Again, we thank you for your patience. While there have been challenges, we know that the situation is improving daily, and that the outcome will be an effective and efficient IT infrastructure for the whole Society.

Clear Skies,

Phil
