

Dear Miss Northcott

I expect you will be just returning from your vacation. I think you had them July last year, I got, last in Aug + felt two weeks left, and as I see to have my weed smears about then I guess I will either smear here or go North just the dust of it.

I am disappointed at having no good night this last week, as there was no moon. I note in journal the success of Miss Patterson, I hope her new position is well liked by her,

Yours Truly
Bert Lopham
